Exploration Packages

V11.0- (full database platform for multiple surveys, unlimited survey size)

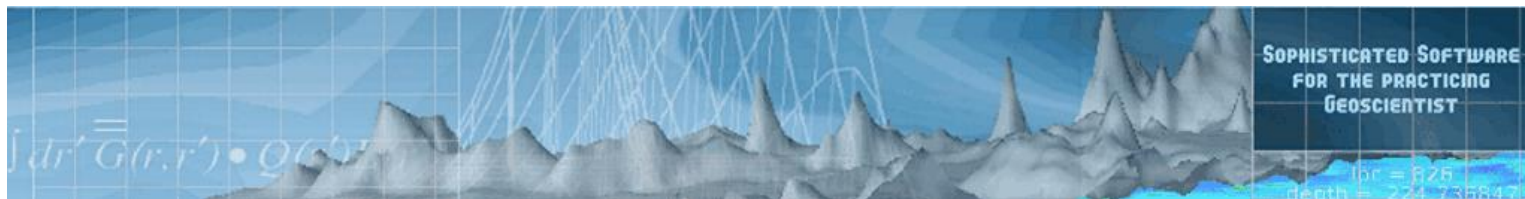

EMIGMA Complete – Airborne, Ground, Borehole <i>For Magnetism, FEM, TEM, Gravity, IP, Resistivity, MMR, VLF, CSEM/CSAMT</i> <i>Includes QCTool Basic plus Gravity & Magnetism</i>	\$10,000
EMIGMA EM for Oil and Gas <i>EM and Magnetism Applications for airborne, ground, marine and borehole surveys</i> <i>Including Natural fields and controlled source electromagnetics plus our magnetism tools</i> <i>Including Land-Based CSEM,MT,ZTEM,AFMAG,MTEM,TEM,FEM,IP,Resistivity,CSAMT</i> <i>Includes QCTool Basic plus Gravity & Magnetism</i>	\$12,000
EMIGMA for Magnetism – Airborne, Ground, Borehole <i>Basic, 2D FFT/DFT, 3D Inversions, Modelling, Euler solutions</i> <i>Includes QCTool Basic plus Advanced Magnetism</i>	\$3,500
EMIGMA for GRAVITY – Ground, Borehole applications <i>Basic, 2D FFT/DFT, 2D/3D modelling, 3D Inversion, Euler, Gravity Corrections</i> <i>Includes QCTool Basic plus Gravity</i>	\$3,500
EMIGMA for Marine Gravity and Magnetism <i>For processing, modeling and inversion of general marine potential field system configurations</i> <i>Includes QCTool Basic plus Gravity & Magnetism</i>	\$8,000
EMIGMA for VLF/VLF-R	\$1,000
EMIGMA Ground Complete <i>IP/Resistivity, FEM, TEM, Magnetism, Gravity, CSEM/CSAMT</i> <i>Includes QCTool Basic plus Gravity & Magnetism</i>	\$8,000
EMIGMA for MT/AMT - Ground applications <i>Basic, Modelling including 2D/3D models, 1D Inversion, 3D Impedance and Tipper Inversions, stacked 1D Inversion sections, Tensor Decomposition package</i>	\$4,500
EMIGMA for MT/AMT with Ground TEM or Resistivity	\$6,000
EMIGMA for Land-Based CSEM and CSAMT <i>- single or multiple grounded 3D current sources</i> <i>1D/2D/3D Forward Modelling, 1D and 3D inversion for multiple fields and transmitters suitable for marine CSEM modeling</i>	\$3,000
EMIGMA for IP/Resistivity – Ground <i>Basic PseudoSections, 3D Inversion, 1D Inversion, 2D/3D modelling package</i>	\$2,000
EMIGMA for IP/Resistivity with borehole and crosshole	\$4,000
EMIGMA for MMR Basic 3D modeling. <i>Also available as add-on to EMIGMA Premium for IP/Resistivity</i>	\$2,000

All above prices are in USD unless stated otherwise, and do not include any taxes, bank transfer charges, delivery costs, custom duties.

Training is available on request.

PRICE LIST

All prices are in US \$ - Valid until Jan 1, 2026

EMIGMA for TEM – Ground, Borehole, Airborne	\$5,500
EMIGMA for TEM – Ground, Borehole	\$3,500
<i>Basic, 3D Modelling, 3D Plate Inversion, 1D inversion including offset Tx-Rx configurations Includes applications for FEM and TEM</i>	
EMIGMA for Surface and Underground Gravity and Magnetics	\$5,000
<i>For processing, modeling, inversion and mapping Includes QCTool Basic plus Gravity & Magnetics</i>	
Airborne and Ground EM for Natural Fields Add-On	\$3,500
<i>For natural field applications such as MT/AMT, ZTEM and AFMAG and capacitive electric field measurements Available as add-on to EMIGMA Premium Complete This add-on is included in the EM for Oil and Gas license</i>	
EMIGMA for FEM – ground applications	\$2,500
EMIGMA for FEM – ground, borehole and airborne	\$4,000
<i>Basic, with Pseudo-Depth imaging, 1D inversion, 3D modeling, 3D Plate Inversion</i>

QCTool V5.6

QCTool V5.6 Basic

Includes 1 year of email support and upgrades

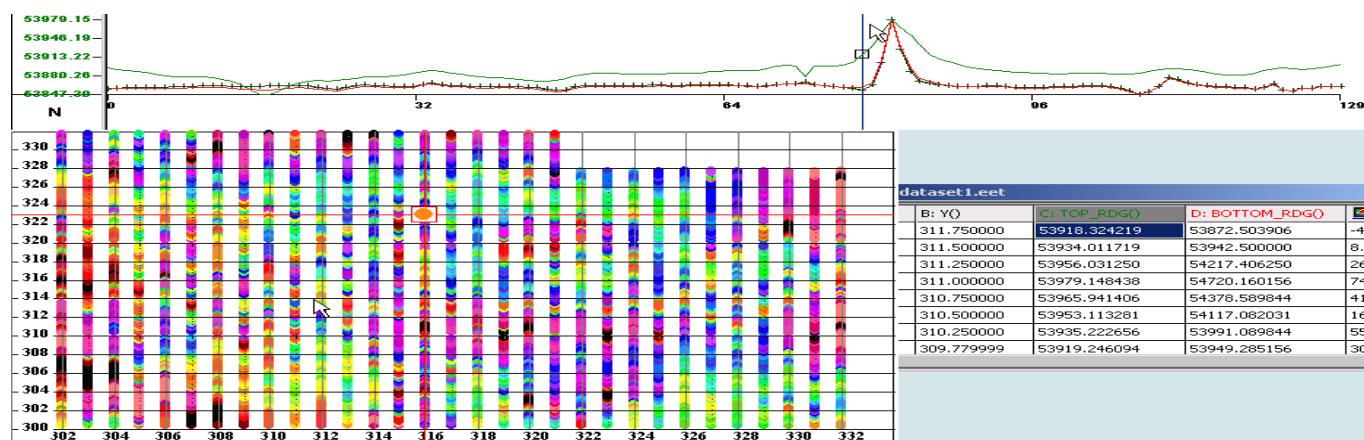

Data Quality Control, unlimited data points, greater than 500 channels, data linked spreadsheet, plotter, gridding, contouring, filters, GPS projections AND MORE

Add-on features

Gravity corrections, magnetic corrections, derivative calculations

Aeromagnetic Compensation license available

Basic Price - \$250 USD/license for more details refer to www.qctool.ca
