IMPORTANT

Installation Instructions for EMIGMA Basic Version

To uninstall EMIGMA Basic, use "Control Panel" -> "Add/Remove Programs"

Run EMIGMA_Basic_Setup.exe and follow the instructions of the setup program.

The installer must have administrative privileges.
After installation, it is recommended to check the following environment variables:

1) TGS_LICENSE_FILE should be set to the location of the password.dat
   e.g. "c:\Program Files\EMIGMA_Basic\bin\password.dat

2) Path should have the location of the "\bin" directory:
   e.g. "c:\ Program Files\EMIGMA_Basic \bin

Note: If you have installed EMIGMA BASIC into a directory other than "c:\ Program Files" ensure that you use that path in the above 2 steps.

Re-boot your computer**.**
