# *IMPORTANT*

### *Installation Instructions for EMIGMA Basic Version*

**To uninstall EMIGMA Basic, use "Control Panel" -> "Add/Remove Programs"**

Run EMIGMA_Basic_Setup.exe and follow the instructions of the setup program.

*Special Instructions for Windows 2000, Windows XP and Windows Vista Users:*
*--- The installer must have administrative privileges.*
*After installation it is recommended to check the following environment variables:*
      1)  TGS_LICENSE_FILE should be set to the location of the password.dat
      e.g.  " c:\Program Files\Emigma_Basic\bin\password.dat

      2)  Path should have the location of the "\bin" directory:
      e.g. " c:\ Program Files\Emigma_Basic \bin

*Note: If you have installed EMIGMA BASIC into a directory other than "c:\ Program Files" ensure that you use that path in the above 2 steps.*

**Re-boot** your computer**.**

Note:
You will encounter a warning message when using EMIGMA Basic 'TGS License File Error'. This is only a warning message. Please click OK to this message and continue normal use.
